About Engineering Entrance Exams

In order to gain admission to IITs, the student needs to write an exam called JEE. This exam consists of two stages:

Stage1: JEE Main and Stage2: JEE Advanced. JEE Main is similar to the earlier AIEEE exam & JEE Advanced is similar to the earlier IIT-JEE.

Admission to IITs are done solely on the basis of the rank in JEE Advanced. JEE Main, XII Board marks and rank do not influence the admissions but are only used as an eligibility criteria. In XII Board, the students are expected to score 75% aggregate or be in the top 20 percentile of the board.

Admission for NITs & IIITs is expected to be purely on the basis of JEE Main performance. As in the case of IITs, XII Board does not influence the admissions but is only used as an eligibility criteria, which differs from college to college.

As per the recent developments, State Entrance Exam MHT-CET is going to continue in 2018 but the level of paper & syllabus will be similar to JEE Main. So although admissions to state colleges will be through MHT-CET exam, students aspiring to take admission here will have to study for JEE Main anyway.

Apart from JEE Main & JEE Advanced, another popular exam is BITSAT, through which admission to BITS Pilani, Goa, Hyderabad & Dubai is decided. Unlike what most people believe, all the popular entrance exams like JEE Main, JEE Advanced etc including BITSAT are very similar in pattern, syllabus and difficulty level.

FAQs For Foundation Accelerated Course

Q1. Will Foundation Accelerated course help me in my preparation of 10th std board exams?

Ans. Yes. We would be covering important topics of P/C/M which will not only help the students in building their base for preparation of engineering entrance exams but also help them in their 10th std board exams preparation. So, Foundation Accelerated course will definitely help the students for 10th boards and other scholarship based exams.

Q2. What after the completion of Foundation Accelerated course?

Ans. After successful completion of the Foundation (Accelerated) course, students will have to write our entrance test for two year comprehensive course.

Q3. What is the duration of Foundation Accelerated course and when does it begin?

Ans. The duration of this course is 8 months. This course begins on 20th May, 2018.

FAQs For Foundation Basic Course

Q1. Why different batch for COC and Champions?

Ans. Getting the best students together is one of the attributes that is common across all the top rank producing institutes throughout the country. The concept of 'COC and Champions' batches, allows students to study with peers of approximately the same intelligence level. This helps students to learn more and even the teachers are able to plan their lectures well.

Q2. How will the admission to the COC batch decided?

Ans. To begin with the admission to the 'COC' batch at BT will happen on the basis of our entrance exam. But after every BTest, there will again be shuffling and the fresh set of toppers will be allowed to attend lectures in the 'COC' batch.

Q3. What after the completion of Basic Foundation course?

Ans. After successful completion of the Foundation (Basic) course, the selected students based on merit will be given admission for the Foundation(Advanced) course. Foundation (Advanced) Course is not offered at all centers.

Q4. What about students who do not qualify for the Foundation Advanced course?

Ans. We strongly recommended that they should repeat the Foundation Basic course and strengthen their fundamentals.

Q5. What after the Foundation Advanced course?

Ans. The students going to 11th std then, should join our 2 yr comprehensive course. For the students going to 10th std then, they are advised to join our 7 month course - Foundation Advanced plus. This course will keep them in sync with JEE preparation and make them ready for the 2 yr Comprehensive course from next year. However, few outstanding students shall be offered to join the Comprehensive course in 10th itself and attend lectures of any subject (Physics or Chemistry or Maths) along with 11th standard students. we have seen it works wonders.

Q6. Why same course for 8th and 9th going students?

Ans. 1) The way teaching at BT happens is very different from the way it happens at most schools. Here, though we teach all the topics from scratch, we add a lot of value even to those students who have studied these topics before at school.

2) As the selection is merit wise, it really does not matter which class the student is from,

3) For outstanding students, there is always the 'COC' batch. Our past experience says even the 'COC' batch (selection to which is strictly merit wise) will be a fair mix of 8th and 9th std. students.

Q7. What is the duration of Foundation Basic course and when does it begin?

Ans. The duration of this course is 9 months.

This course begins on 17th May 2018 for Thursday batches, 18th May 2018 for Friday batches, 19th May 2018 for Saturday batches and 20th May 2018 for Sunday batches.
