(1 year course for 12th passed students)

About Bakliwal Tutorials

Bakliwal Tutorials - IIT (BT) was started in March 2005 with the aim to help students preparing for IIT-JEE, realize their dreams, and to make sure that the preparation process itself becomes a fun filled and growth involving experience. The institute is successfully doing so and is now training more than 3000 students across various courses & centers. In the last 11 years more than 700 students from BT have cleared IIT-JEE (now JEE-Advanced), with unparalleled results.

About Engineering Entrance Exams

In order to gain admission to IITs, the student needs to write an exam called JEE. This exam consists of two stages:

Stage1: JEE Main and Stage2: JEE Advanced. JEE Main is similar to the earlier AIEEE exam & JEE Advanced is similar to the earlier IIT-JEE.

Admission to IITs are done solely on the basis of the rank in JEE Advanced. JEE Main, XII Board marks and rank do not influence the admissions but are only used as an eligibility criteria. In XII Board, the students are expected to score 75% aggregate or be in the top 20 percentile of the board.

Admission for NITs, IIITs and State Engineering colleges is expected to be purely on the basis of JEE Main performance. As in the case of IITs, XII Board does not influence the admissions but is only used as an eligibility criteria, which differs from college to college.

As per the recent developments, State Entrance Exams like MHT-CET are likely to be called off and admissions to state colleges will be through JEE Main only. Similarly Private College Entrance exams like BITSAT are also likely to be called off and their admissions again may be done through the JEE Main Exam.

About Compact Course

To succeed in prominent engineering entrance exams, one requires a thorough understanding of subjects: Physics, Chemistry and Mathematics, and the ability to solve unseen and new questions with accuracy and speed.

Keeping this in mind, our course has been designed in such a manner that it will focus on:

- Core concepts and fundamentals.
- Sharpening analytical skills and developing problem solving abilities.
- Speed building through intensive problem solving sessions and tests.

Thus our course design is such that a sincere student is bound to cultivate self confidence and acquire a grip and easy 'feel' for all engineering entrance exams.

This one year course for 12th passed students, with 800+ hrs of class room coaching truly makes them ready for the challenges of JEE and other important engineering entrance exams.
