About Bakliwal Tutorials

Bakliwal Tutorials (BT) was started in March 2005 with the aim to help students preparing for IIT-JEE, realize their dreams, and to make sure that the preparation process itself becomes a fun filled and growth involving experience. The institute is successfully doing so and is now training more than 2500 students across various courses & centers. In the last 15 years more than 1200 students from BT have cleared IIT-JEE (now JEE-Advanced).

With many city & state toppers along with numerous selections in top 1000/2000/5000 in JEE, BT has produced unparalleled results in Maharashtra and also one of the best in India amongst institutes of BT's size.

Amongst the JEE training institutes in the country, BT has become synonymous with ethics and transparency. We give contact details of all our JEE Advanced qualified students on our website, in the results section. All our qualified students have been our regular classroom students and not distance learning, test series or crash course students.

JEE-Main 2020, AIR 52

I joined Bakliwal Tutorials in my 8th standard for the foundation course and then there was no looking back. I was totally mesmerised by the highly proficient teachers and their zeal. The teachers in BT are very dynamic and guide students in all aspects of preparation. They are always proactive to clarify our doubts at any time of the day. There is never a single dull moment in the class. I wish to express my gratitude towards the entire BT Team “Lucky To Be A Btian”

IIT(B) Computer Science

I have studied at BT for 4 years starting at my 9th standard from Foundation course. All those hours spent in class studying and enjoying cannot be forgotten. I had never seen such passionate teachers before joining BT. As rightly said – BT means Brilliant Teachers

It has been a long association of 4 years. At BT, though we were actually taught PCM, we unknowingly also underwent personality development. I feel tremendously confident and positive about my merit. This confidence is nothing but BT's gift to me.

IIT(B) Aerospace

I joined BT in the 9th standard as part of the Foundation program. My teachers at BT guided me all through my journey. They are the prime reason for my success. Specially Vaibhav sir, whose mental preparation techniques gave me confidence that I really would crack IIT.

About Winter Foundation Course

The Winter Foundation course is an **accelerated version of the Foundation Basic course** primarily meant for students who are currently in 9th or 10th std.

Students who are in 9th std currently can complete the Winter Foundation course now and then can join the Foundation Advanced course when they move to 10th std next year.

Whereas students who are in 10th std currently and have not done any BT Foundation course before can complete the Winter Foundation course for now to build up their base for the 2 year Comprehensive course after 10th std.

The Winter Foundation course is thoughtfully planned from **29 Dec. 2020, Tuesday to 28 Feb. 2021, Sunday** (duration of 9 weeks). This course will contain 3 lectures per week. Lectures will be on **Tuesday, Thursday and Saturday** and all 4 exams during the course will be held on **Sunday**.

The P/C/M lectures and the corresponding assignment sheets are carefully planned to help early generation of interests in these subjects. The logic lectures further facilitate in developing the students analytical thinking and problem- solving abilities.

With school and board exams scheduled to get delayed this year, students would have good enough time to complete this course for now and get charged up for the journey ahead.
