About Bakliwal Tutorials

Bakliwal Tutorials (BT) was started in March 2005 with the aim to help students preparing for IIT-JEE, realize their dreams, and to make sure that the preparation process itself becomes a fun filled and growth involving experience. The institute is successfully doing so and is now training more than 2500 students across various courses & centers. In the last 15 years more than 1200 students from BT have cleared IIT-JEE (now JEE-Advanced).

Year after year our selections in top 1000/2000/5000/10000/overall are substantially more than any other institute in Pune. Our success ratio is one of the best amongst all institutes across the country.

Amongst the JEE training institutes in the country, BT has become synonymous with ethics and transparency. We give contact details of all our JEE Advanced qualified students on our website, in the results section. All our qualified students have been our regular classroom students and not distance learning, test series or crash course students.

We earnestly request parents to objectively compare the result of institutes by visiting the results page of their websites and not fall for marketing blitzkrieg.

Results speak louder than words!

About Comprehensive Course

To succeed in prominent engineering entrance exams, one requires a **thorough understanding of subjects: Physics, Chemistry and Mathematics**, and the ability to solve unseen and new questions with accuracy and speed. Comprehensive course design is such that a sincere student is bound to cultivate self confidence and acquire a grip and easy 'feel' for all engineering entrance exams.

At BT, **we have mastered a 4-week format**, in which at least 21 lectures (minimum 7 for each subject) of 3 hours duration are offered to students. 1 Offline and 1 Online test (with common ranking across batches) with detailed analysis apart from the class tests are also conducted within these 4 weeks. This structure ensures effective and timely completion of syllabus. This is further followed by **3 rounds of rigorous revisions** till JEE Advanced.

With **1800+ hrs of Class Room/Online teaching**, more than 100 tests and many more hours of doubt sessions, this two year course for 10th passed students is truly comprehensive.

Comprehensive course formats

The 2 year Comprehensive course is offered in 3 formats:

1. Comprehensive Offline (Completely offline)
2. Comprehensive Synergy (Offline + Online)
3. Comprehensive Online (Completely online)

1. Comprehensive Offline:

In this format, student attends lectures in classroom coaching mode at our various centers. Total of 6 lectures are conducted per week for 3 hours per day at every center. Student can choose a center of his choice.(out of the options available in this format in his category of batch).

2. Comprehensive Synergy:

In this format, student attends 3 lectures per week in classroom coaching mode at our centers and 3 lectures per week in online coaching mode from his home. Total of 6 lectures per week for 3 hour per day duration are offered in this format as well. Online lectures are live lectures at a specified time daily. Student can choose a center of his choice. (out of the options available in this format in his category of batch).

3. Comprehensive Online:

In this format, student attends all lectures in online mode from his/her home. Minimum of 6 lectures are conducted per week for 3 hours per day. These are live lectures at a specified time daily.

** If student's wish, they would be allowed to shift from one format to another anytime during the course basis seat availability. **

Doubt clearing platforms:

Apart from doubts discussed during the lecture, there would be various ways through which students can get their doubts cleared. Following are the platforms which student can use for the same:

1. Telegram group

Official Telegram groups (similar to WhatsApp groups) are created batch wise with a sole purpose of doubts discussion. Students can post their doubts in that group and fellow batch mates along with teachers will participate to solve the same. This helps students to get instant solutions to most their doubts at almost any time of the day.

2. Doubt Forum

A separate doubt forum is created where students can post their doubts. Teachers provide video solutions of the doubts in the forum. Also, all the doubts posted by all students in that forum shall be systematically available for future reference and learnings, which students can access as and when they wish.

3. Personalised doubt session

In addition to regular lectures, we also conduct personalised doubt sessions (in small groups both in online and offline format) where students can ask their doubts to the concerned teacher at a specified allotted date and time. All students get this opportunity at regular intervals in rotation.

4. After the lecture

Teachers are available for doubt discussion after the lecture (both in online and offline lecture) for some time. Student can make use of this extra time to interact with teachers personally and get their doubts solved.

Types of Batches:

Getting the best students together is one of the attributes that is common across all the top rank producing institutes in the country. The concept of '**merit wise batches**' allows students to study with their peers of relatively the same intelligence level. This maximizes the personal growth of students and even the teachers are able to plan their lectures well. This also creates a spirit of positive & healthy competition among the students. These batches are not fixed in 11th standard and are prone to shuffle based on child's performance in regular Btests.

Types of Batches: In Comprehensive course, there are **4 types** of batches.

1. **Wizards** - Students who perform exceptionally well in the entrance exam are selected for Wizards batch.
2. **Champions of Champions (COC)** - The next set of students who perform very well get selected for the COC batch.
3. **Champions** - Students who do well, but are not able to get through COC, are selected for the Champions batch.
4. **Challengers** - Students who perform averagely are selected for the Challengers batch.

To begin with, students shall be allotted batches as per their combined performance in the entrance exam & BTests conducted so far. In class 11th, **after every 4 weeks**, we conduct an **offline BTest**. Based on the performance in the first BTest, batches will be re-allotted to students maintaining their location preferences. Then the re-allotment shall happen after two BTests as per combined performance in those two BTests. So, the re-allotment is done after odd numbered BTests i.e. **1, 3, 5, 7** and so on.

Course Plan

The Comprehensive course shall begin from **Monday, 14th of June 2021**. For now, we have planned a systematic series of special lectures which will help students in their 10th boards preparation, details of which would be provided to you in the entrance exam result mail.

Comprehensive course would consist of, on an average, 6 lectures per week. In addition to these regular lectures, separate doubt sessions are also conducted at different centers & online mode regularly where a student gets an opportunity to get his/her doubts solved on a one to one basis. Every 4 weeks, other than the class tests, there are 2 mega tests (1 online and 1 offline), which we call BTest.

Till the **end of October 2022** the students are thoroughly taught all the topics from JEE syllabus (for details, see the table on next page). After October 2022, we revise and re-revise the syllabus through lectures of increased time duration and systematically designed sheets and tests till JEE Advanced exam (conducted in the last week of May 2023). Also, special batches for MHTCET/BITSAT/Boards are floated after October 2022.
