About Bakliwal Tutorials

Bakliwal Tutorials (BT) was started in March 2005 with the aim to help students preparing for IIT-JEE, realize their dreams, and to make sure that the preparation process itself becomes a fun filled and growth involving experience. The institute is successfully doing so and is now training more than 2500 students across various courses & centers. In the last 15 years more than 1200 students from BT have cleared IIT-JEE (now JEE-Advanced).

With many city & state toppers along with numerous selections in top 1000/2000/5000 in JEE, BT has produced unparalleled results in Maharashtra and also one of the best in India amongst institutes of BT's size.

Amongst the JEE training institutes in the country, BT has become synonymous with ethics and transparency. We give contact details of all our JEE Advanced qualified students on our website, in the results section. All our qualified students have been our regular classroom students and not distance learning, test series or crash course students.

I joined Bakliwal Tutorials in my 8th standard for the foundation course and then there was no looking back. I was totally mesmerised by the highly proficient teachers and their zeal. The teachers in BT are very dynamic and guide students in all aspects of preparation. They are always proactive to clarify our doubts at any time of the day. There is never a single dull moment in the class. I wish to express my gratitude towards the entire BT Team "Lucky To Be A Btian"

It has been a long association of 4 years. At BT, though we were actually taught PCM, we unknowingly also underwent personality development. I feel tremendously confident and positive about my merit. This confidence is nothing but BT's gift to me.

About Pre-Foundation course

In this fast-paced world, the ability to analyse things in depth is badly missing, but is a cornerstone for excellence in most fields. This can be best developed, in relatively early years, through Math basics, thought-provoking logic-based exercises and age appropriate riddles.

We at BT believe that most students are geniuses but under nurtured by the information based instead of the thinking-based education. And when students realize that the formal education system has left them with unclear concepts and mediocre thinking, it usually is late.

Hence, The Pre-Foundation course at BT is a novel concept thoughtfully **designed to work on students analytical thinking and problem solving abilities** at an early stage. Here students will be having fun with Math and logic, learning it from very high quality teachers.

Though this shall be a light course, but it is best suited for students who want to experience the mental adventures rather than settling for the mundane.

The lectures would be conducted **once in a week for 3 hours duration** (with a 15 mins break in between). Last 30 mins of the lecture would be dedicated to discuss and solve doubts of students. These would be live and engaging online lectures which the student can attend from the comfort of one's home itself.

Start date of the course

The course will begin from **18th June, 2021 (for Friday batch) & 20th June, 2021 (for Sunday batch)** and will end by Jan end 2022.

Types of Batches

Getting the best students together is one of the attributes that is common across all the top rank producing institutes in the country. The concept of '**merit wise batches**' allows students to study with their peers of relatively the same intelligence level. This maximizes the personal growth of students and even the teachers are able to plan their lectures well. This also creates a spirit of positive & healthy competition among the students.

Types of Batches: In Pre-Foundation course, there will be 2 types of batches.

1. **Champions of Champions (COC)** - Students who perform exceptionally well in the entrance exam will be selected for COC batch.
2. **Champions** - The next set of students who perform well will get selected for the Champion batch.

To begin with, students shall be allotted batches as per their performance in the entrance exam. During the course, there would be an online test (which we call BTest) every month to track the progress of the students. Based on the combined performance of every 2 BTests put together, batches will be re-allotted to students after every 2 months.

Batch category wise lecture timing details

1. For **COC** batch, lecture would be conducted on every **Friday, 5 pm to 8 pm**.
2. For **Champion** batch, lecture would be conducted on every **Sunday, 5 pm to 8 pm**.

Course Plan

Following topics, related to important concepts of Mathematics and Logical thinking, would be covered in this course. Every 4th lecture would consist of an online test (BTest) of 2 hours followed by test discussion of 1 hour duration.

Week	Topic Name
1	Number systems - Natural Numbers, Whole numbers, Integers, Fractions, Number Line
2	Fractions (Addition, Subtraction, Multiplication, Division)
3	Decimals and Percentages - Concept of Decimal Number System
4	BTest 1 + Discussion
5	Factors and Multiples - LCM, HCF and Prime Factorisation
6	Counting Principle - Addition Rule and Multiplication Rule
7	Analytical Reasoning - Scheduling and Seating Arrangements
8	BTest 2 + Discussion

ONLINE PAYMENT FOR REGISTRATION

For registering online, you can visit www.bakliwaltutorialsit.com

- then, click on 'Registration for entrance exam',
- fill the registration form,
- select the course 'Pre-Foundation Basic'
- Pay & register
- then select the suitable mode of payment from the 3 options and pay Rs. 100/-.

Course Material & Online testing platform

We will provide our own Course material and might recommend 1-2 books for additional study which the student needs to arrange. We will also provide an online testing platform which is used to conduct various practice tests and online BTests (once in every month). This Online platform provides a detailed & personalised analysis of the student's performance like time spent to solve each question, subject wise comparison with toppers, topic wise strength & weaknesses etc. giving vital inputs for improvement in the examination technique.

Doubt clearing platforms:

Apart from doubts discussed during the lecture, there would be various ways through which students can get their doubts cleared. Following are the platforms which student can use for the same:

1. After the lecture

The 3 hour lecture would consist of last half an hour dedicated to doubts discussion only. Students can make use of this time to interact with teachers and get their doubts solved.

2. Doubt Forum

A separate doubt forum is created where students can post their doubts. Teachers provide video solutions of the doubts in the forum. Also, all the doubts posted by all students in that forum shall be systematically available for future reference and learnings, which students can access as and when they wish.

3. Personalised doubt session

In addition to regular lectures, we also conduct personalised doubt sessions (in small groups both in online and offline format) where students can ask their doubts to the concerned teacher at a specified allotted date and time. All students get this opportunity at regular intervals in rotation.
