(9 months course for students currently in 7th or 8th std)

(Available in Synergy (offline + online) & completely online formats)

### About Bakliwal Tutorials

Bakliwal Tutorials (BT) was started in March 2005 with the aim to help students preparing for IIT-JEE, realize their dreams, and to make sure that the preparation process itself becomes a fun filled and growth involving experience. The institute is successfully doing so and is now training more than 2500 students across various courses & centers. In the last 15 years more than 1200 students from BT have cleared IIT-JEE (now JEE-Advanced).

Year after year our selections in top 1000/2000/5000/10000/overall are substantially more than any other institute in Pune. Our success ratio is one of the best amongst all institutes across the country.

**Amongst the JEE training institutes in the country, BT has become synonymous with ethics and transparency. We give contact details of all our JEE Advanced qualified students on our website, in the results section. All our qualified students have been our regular classroom students and not distance learning, test series or crash course students.**

We earnestly request parents to objectively compare the result of institutes by visiting the results page of their websites and not fall for marketing blitzkrieg.

### Results speak louder than words!

- **Dominating 2020 results:**  
Maha. Rank 1 in JEE Adv., AIR 7 in JEE Adv., Pune rank 1 and rank 2 in JEE Main, AIR 1 in KVPY, 285 selections in JEE Adv.

Vedang Asgaonkar  
JEE-Adv 2020, AIR 7  
JEE-Main 2020, AIR 52

*I joined Bakliwal Tutorials in my 8<sup>th</sup> standard for the foundation course and then there was no looking back. I was totally mesmerised by the highly proficient teachers and their zeal. The teachers in BT are very dynamic and guide students in all aspects of preparation. They are always proactive to clarify our doubts at any time of the day. There is never a single dull moment in the class. I wish to express my gratitude towards the entire BT Team "Lucky To Be A Btian"*

Akshat Chugh

IIT(B) Computer Science

*It has been a long association of 4 years. At BT, though we were actually taught PCM, we unknowingly also underwent personality development. I feel tremendously confident and positive about my merit. This confidence is nothing but BT's gift to me.*

Karthik Mahesh  
IIT JEE 2015, AIR 22  
AIEEE 2015, AIR 104  
IIT(B) Aerospace

*I joined BT in the 9<sup>th</sup> standard as part of the Foundation program. My teachers at BT guided me all through my journey. They are the prime reason for my success. Specially Vaibhav sir, whose mental preparation techniques gave me confidence that I really would crack IIT.*

## About Foundation Course

The Foundation course at BT is thoughtfully designed to help students crack quality competitive exams. The Physics, Chemistry & Mathematics lectures and the corresponding assignment sheets are carefully planned to help early generation of interests in these subjects. The logic lectures further facilitate in developing the students analytical thinking and problem-solving abilities. The **introduction of Coding** lectures this year would also ensure that students understand the basic concepts of coding from this age itself, thereby giving them a competitive edge.

This year, we shall offer **2 lectures per week** in the Foundation course thereby doubling the contact hours. Each lecture would be of 3 hours duration, with a 15 mins break in between. In addition to these 2 lectures per week, few special lectures will also be conducted for **preparation of important exams like NTSE, Junior science olympiads, pre RMO** etc.

### **Foundation course formats:**

The Foundation course is offered in 2 formats:

1. Foundation Synergy (Offline + Online)
2. Foundation Online (Completely online)

### **1. Foundation Synergy:**

In this format, every week, 1 lecture will be conducted in classroom coaching mode at our various centers and 1 lecture would be conducted in online mode. Online lectures would be live lectures at a specified day and time, which the students can attend from the comfort of their homes. Student can choose a center of his choice (out of the options available in this format in his category of batch).

### **2. Foundation online:**

In this format, students will attend both lectures per week online itself. Online lectures would be live lectures at a specified day and time, which the students can attend from the comfort of their homes.

**\* If student's wish, they would be allowed to shift from one format to another anytime during the course, depending on seat availability. \***

## Selection for the Foundation Course shall be based on the performance in this Entrance test

### **Entrance Program Date - 23rd January 2021 (Saturday)**

Every year, we conduct this entrance program in offline mode. However, this year, due to the Covid-19 situation, the entire entrance exam process will be conducted ONLINE.

**3.45 pm - Reporting Time (Log into the Zoom Meeting)**

**4:00 to 5:30pm - Online IQ based test**

**6:00 to 8:00pm - Parents & students online interaction with Vaibhav Bakliwal Sir**

1. As soon as you register for this entrance exam, you shall receive a confirmation mail about the same from us. One of our staff members shall call you after you register and can be your one point contact for all your queries.
2. You shall receive a practice test link 2 days before the examination, containing 5 questions. Student should take that test to get used to writing a test on the online portal and report the difficulty faced if any.
3. The actual entrance exam would be conducted on 23rd January from 4 pm onwards as per the above schedule. A stable internet connection shall help in smooth conduction of the test.
4. Result (which includes the type of batch and the scholarship won, if any) of the test shall be communicated within 48 hours via Email and SMS.
5. In that Result email, we shall invite qualified students & parents to attend an online session on a specified date and time for Entrance exam review & answering further queries, if any.
6. The fee for this entrance exam would be Rs. 200 only.

### **ONLINE PAYMENT FOR REGISTRATION**

For registering online, you can visit [www.bakliwaltutorialsit.com](http://www.bakliwaltutorialsit.com)

- then, click on 'Registration for entrance exam',
- fill the registration form,
- select the course '*Foundation Basic*'
- Pay & register
- then select the suitable mode of payment from the 3 options and pay Rs. 200/-.

## Types of Batches:

Getting the best students together is one of the attributes that is common across all the top rank producing institutes in the country. The concept of '**merit wise batches**' allows students to study with their peers of relatively the same intelligence level. This maximizes the personal growth of students and even the teachers are able to plan their lectures well. This also creates a spirit of positive & healthy competition among the students.

**Types of Batches:** In Foundation course, there are 2 types of batches.

1. **Champions of Champions (COC)** - Students who perform exceptionally well in the entrance exam are selected for COC batch.

2. **Champions** - The next set of students who perform well get selected for the Champion batch.

To begin with, students shall be allotted batches as per their performance in the entrance exam. In Foundation course, after every 8 weeks, we conduct an offline BTest. Based on the performance in this BTest, batches will be re-allotted to students maintaining their location preferences.

## Course Plan

Every 8 weeks, there shall be 4 Physics, 4 Chemistry, 4 Math, 1 Logic & 1 Coding lecture each of 3 hour duration and 1 B-Test of 3 hrs. In addition, separate doubt sessions are also conducted at different centers regularly where a student gets an opportunity to get his/her doubts solved on a one to one basis. The same shall be conducted online as well. Every 8 weeks, other than the offline BTest, there will be 1 online BTest as well.

The results of BTests are sent via SMS and are also put on the BT's website by the next day.

## Course Material & Online testing platform

BT provides its own Course material and recommends a few books for additional study which the student needs to arrange. It also provides an online testing platform which is used to conduct various practice tests and online BTests (once every 8 weeks). This Online platform provides a detailed & personalised analysis of the student's performance like time spent to solve each question, subject wise comparison with toppers, topic wise strength & weaknesses etc. giving vital inputs for improvement in the examination technique.

The results of BTests are sent via SMS and are also put on the BT's website by the next day.

## Doubt clearing platforms:

Apart from doubts discussed during the lecture, there would be various ways through which students can get their doubts cleared. Following are the platforms which student can use for the same:

### 1. Doubt Forum

A separate doubt forum is created where students can post their doubts. Teachers provide video solutions of the doubts in the forum. Also, all the doubts posted by all students in that forum shall be systematically available for future reference and learnings, which students can access as and when they wish.

### 2. Personalised doubt session

In addition to regular lectures, we also conduct personalised doubt sessions (in small groups both in online and offline format) where students can ask their doubts to the concerned teacher at a specified allotted date and time. All students get this opportunity at regular intervals in rotation.

### 3. After the lecture

Teachers are available for doubt discussion after the lecture (both in online and offline lecture) for some time. Student can make use of this extra time to interact with teachers personally and get their doubts solved.

## Fee Details

Rs 45,000/- (inclusive of all taxes to be paid within one week of the result of the Entrance Test. No installments)

- All the above scholarships are applicable for the achievements after 5th std.

## FAQs For Foundation Basic Course

### Q1. Why different batch for COC and Champions?

Ans. Getting the best students together is one of the attributes that is common across all the top rank producing institutes throughout the country. The concept of 'COC and Champions' batches, allows students to study with peers of approximately the same preparation level. This helps students to learn more and even the teachers are able to plan their lectures well.

### Q2. How will the admission to the COC batch decided?

Ans. To begin with the admission to the 'COC' batch at BT is decided on the basis of our entrance exam. But after every offline BTest, there is shuffling and the fresh set of toppers are selected to attend lectures in the 'COC' batch.

### Q3. What after the completion of Basic Foundation course?

Ans. After successful completion of the Foundation (Basic) course, the selected students based on merit are given admission for the Foundation Advanced course. Foundation Advanced Course is not offered at all centers.

### Q4. What about students who do not qualify for the Foundation Advanced course?

Ans. We strongly recommended that they should repeat the Foundation Basic course and strengthen their fundamentals. For students who narrowly miss selection to Foundation Advanced we organize a 7 days camp. An exam is conducted on the last day of the camp to select few more students.

### Q5. What after the Foundation Advanced course?

Ans. The students going to 11th std. then, should join our 2 year comprehensive course. For the students going to 10th std then, they are advised to join our 7 month course - Foundation Advanced plus. This course keeps them in sync with JEE preparation and make them ready for the 2 yr Comprehensive course from the next year.

### Q6. Why same course for 8th and 9th going students?

Ans. The topics selected in Foundation Basic course do not follow any particular std's syllabus. It is mostly a mix of 8th and 9th std topics. The way we teach at BT is different from most schools. In this course, we teach all the topics with an objective of improving thinking abilities of the child. Students with just 1 year difference are comfortably able to study together and understand what has been taught in the class.

### Q7. We have heard that BT encourages few outstanding students from 9th/10th std to attend 1 subject out of P/C/M with 11th std students. Is that true?

Ans. Yes, this course is called 'Special Comprehensive course'. Many top rankers from BT have benefited through this concept. For example Omkar Thakoor had done 11th std physics when he was in 9th and 12th std physics when he was in 10th. Kalpesh Krishna had done 11th std physics when he was in 10th std. Omkar and Kalpesh not just scored very well in JEE Physics but also cleared Physics Olympiad round 1. Omkar also cleared the round 2. Top students of the Foundation Basic course (based on their performance in BTests) are offered this special program next year after the Foundation Basic course is completed.
