About Bakliwal Tutorials

Bakliwal Tutorials (BT) was started in March 2005 with the aim to help students preparing for IIT-JEE, realize their dreams, and to make sure that the preparation process itself becomes a fun filled and growth involving experience. The institute is successfully doing so and is now training more than 2500 students across various courses & centers. In the last 15 years more than 1200 students from BT have cleared IIT-JEE (now JEE-Advanced).

Year after year our selections in top 1000/2000/5000/10000/overall are substantially more than any other institute in Pune. Our success ratio is one of the best amongst all institutes across the country.

Amongst the JEE training institutes in the country, BT has become synonymous with ethics and transparency. We give contact details of all our JEE Advanced qualified students on our website, in the results section. All our qualified students have been our regular classroom students and not distance learning, test series or crash course students.

We earnestly request parents to objectively compare the result of institutes by visiting the results page of their websites and not fall for marketing blitzkrieg.

Results speak louder than words!

Roughly 80% success of a student depends on child's own efforts. The remaining 20% depends on institute's culture/practices/training/competition. BT leaves no stone unturned in playing it's part well.

I joined Bakliwal Tutorials in my 8th standard for the foundation course and then there was no looking back. I was totally mesmerised by the highly proficient teachers and their zeal. The teachers in BT are very dynamic and guide students in all aspects of preparation. They are always proactive to clarify our doubts at any time of the day. There is never a single dull moment in the class. I wish to express my gratitude towards the entire BT Team "Lucky To Be A Btian"

IIT(B) Computer Science

I have studied at BT for 4 years starting at my 9th standard from Foundation course. All those hours spent in class studying and enjoying cannot be forgotten. I had never seen such passionate teachers before joining BT. As rightly said – BT means Brilliant Teachers

It has been a long association of 4 years. At BT, though we were actually taught PCM, we unknowingly also underwent personality development. I feel tremendously confident and positive about my merit. This confidence is nothing but BT's gift to me.

I joined BT in the 9th standard as part of the Foundation program. My teachers at BT guided me all through my journey. They are the prime reason for my success. Specially Vaibhav sir, whose mental preparation techniques gave me confidence that I really would crack IIT.

About Foundation Advanced Plus Course

Foundation Advanced Plus course is offered to students who successfully complete Foundation Basic & Advanced course at BT. Foundation Advanced Plus course helps students gain depth on the concepts of P/C/M which they have learnt during the Basic & Advanced course. This course not only further develops their confidence but also **helps them in their preparation for their 10th board exams.**

Considering the current situation and the fact that students are moving to their crucial 10th std next year, we have planned the Foundation Advanced Plus course **completely in online format** for next year. Students can attend these lectures from the comfort of their homes without exposing themselves to any risk.

2 lectures per week would be offered in this course. Each lecture would be of 3 hours duration, with a 15 mins break in between. In addition to these 2 lectures per week, few special lectures will also be conducted for **preparation of important exams like NTSE, Junior science olympiads, pre RMO etc.**

Admission Process

Only selected Foundation Advanced students are offered this course. To start with, top 120 students (going to 10th std) will be offered this course. Selection to the Foundation Advanced Plus course is based on the performance of the student in the BTests conducted during the Advanced course. Best of 3, out of the 4 B-tests conducted so far, would be considered. The details of the qualified 120 students rank wise would be declared by 4th January 2021.

Selected students need to confirm their admission latest by 17th Jan, 2021. We might offer admissions to few more students later depending upon seat availability.

Start date of the course:

The Foundation Advanced course will begin from **12th May, 2021** and will be conducted till end of Dec, 2021.

Doubt clearing platforms:

Apart from doubts discussed during the lecture, there would be various ways through which students can get their doubts cleared. Following are the platforms which student can use for the same:

1. Doubt Forum

A separate doubt forum is created where students can post their doubts. Teachers provide video solutions of the doubts in the forum. Also, all the doubts posted by all students in that forum shall be systematically available for future reference and learnings, which students can access as and when they wish.

2. Personalised doubt session

In addition to regular lectures, we also conduct personalised doubt sessions (in small groups both in online and offline format) where students can ask their doubts to the concerned teacher at a specified allotted date and time. All students get this opportunity at regular intervals in rotation.

3. After the lecture

Teachers are available for doubt discussion after the lecture (both in online and offline lecture) for some time. Student can make use of this extra time to interact with teachers personally and get their doubts solved.

Course Material & Online Testing Platform

BT provides its own Course material and recommends a few books for additional study which the student needs to arrange. It also provides an online testing platform which is used to conduct various practice tests and online BTests (once every 8 weeks). This Online platform provides a detailed & personalised analysis of the student's performance like time spent to solve each question, subject wise comparison with toppers, topic wise strength & weaknesses etc. giving vital inputs for improvement in the examination technique.

Course Plan

Every 8 weeks, there shall be 2 Physics, 2 Chemistry, 2 Math, 1 Logic and 1 B-Test of 3 hrs. All B-Tests are conducted using OMR (Optical Mark Recognition).

The results of B-Tests are sent via email and are also put on the BT's website by the next day.

	Physics	Mathematics	Chemistry	Logic
Lecture 1	Vectors & Mechanics Revision	Revision	Chemical Bonding - 1	Revision (mathematical games/parity/invariants) and general puzzles
Lecture 2	Optics Revision	Binomial Theorem	Chemical Bonding - 2	
BTest - 1				
Lecture 3	Electrostatics & Current Electricity Revision	Complex Number - 1	IUPAC Nomenclature - 1	Powers and series, compounding
Lecture 4	Magnetism	Complex Number - 2	IUPAC Nomenclature - 2	
BTest - 2				
Lecture 5	EMI	Differential Calculus - 1	Structural & Geometrical Isomers	Logic gates, binary and other number systems
Lecture 6	Derivatives	Differential Calculus - 2	Thermodynamics - 1

FAQs

Q1. Would this course over burden the student as he has to prepare for his 10th std board exam also this year?

Ans. Objective of this course is to keep the student in sync with the JEE preparation and ensure his steady progress for the same. Hence, any break in between is not desirable. We have kept the duration of this course short (only 7 months) and would be ending this course in Dec end itself so that the student gets free early for his board exam preparation. Hence, this course in no way would over burden the student. On the contrary, most topics from this course shall only help students for their 10th boards preparation.

Q2. What about students who do not qualify for the Foundation Advanced Plus course?

Ans. For students who do not qualify for Foundation Advanced Plus course, we strongly recommend that they repeat the Foundation Advanced course and strengthen their fundamentals. Fees for students who repeat the Foundation Advanced course is Rs 25,000/.

Q3. What after the completion of Foundation Advanced Plus course?

Ans. After successful completion of the Foundation Advanced Plus course, students will have to write our entrance test for two years comprehensive course.

Q4. We have heard that BT encourages few outstanding students from 9th/10th std to attend 1 subject out of P/C/M with 11th std students. Is that true?

Ans. Yes, this course is called 'Special Comprehensive course'. Many top rankers from BT have benefitted through this concept. For example Omkar Thakoor had done 11th std physics when he was in 9th and 12thstd physics when he was in 10th. Kalpesh Krishna had done 11th std physics when he was in 10th std. Omkar and Kalpesh not just scored very well in JEE Physics but also cleared Physics Olympiad round 1. Omkar also cleared the round 2. Top students based on their performance in BTests during the FoundationAdvanced course will be offered 'Wizards' batch for this special program. Those top students would be contacted by our team separately very soon.

Q5. What is the duration of Foundation Advanced Plus Course and when does it begin?

Ans. The duration of this course is 7 months. This course begins on 12th May 2021 and finish by Dec end 2021.
