### About Bakliwal Tutorials

Bakliwal Tutorials (BT) was started in March 2005 with the aim of helping students preparing for IIT-JEE realize their dreams and make sure that the preparation process itself becomes a fun-filled and growth involving experience. The institute is successfully doing so and is now training more than 2500 students across various courses & centers. In the last 18 years, more than 1600 students from BT have cleared IIT-JEE (now JEE-Advanced).

Year after year, in JEE, the number of selections in the top 1000/ 2000/ 5000/ 10000 ranks and overall from BT is substantially more than any other institute in Pune. Our success ratio is one of the best amongst all the institutes across the country.

**Amongst the JEE training institutes in the country, BT has become synonymous with ethics and transparency. We are the only institute in the entire country, that gives contact details of all its JEE Advanced qualified students on its website. All our qualified students have been our regular classroom students, and not distance learning, test series or crash course students.**

We earnestly request parents to objectively compare the results of institutes by visiting the results pages of their websites and not fall for marketing blitzkrieg.

## About Compact Course

To succeed in prominent engineering entrance exams, one requires a thorough understanding of subjects: Physics, Chemistry and Mathematics, and the ability to solve unseen and new questions with accuracy and speed.

Keeping this in mind, our course has been designed in such a manner that it will focus on:

- Core concepts and fundamentals.
- Sharpening analytical skills and developing problem solving abilities.
- Speed building through intensive problem solving sessions and tests.

Thus our course design is such that a sincere student is bound to cultivate self confidence and acquire a grip and easy 'feel' for all engineering entrance exams.

This one year course for 12th passed students, with 900+ hrs of class room coaching truly makes them ready for the challenges of JEE and other important engineering entrance exams.

***Averagely 8 lectures per week shall be conducted in the Compact course to ensure that syllabus gets covered well in time before the JEE exam next year.***
